RE: Docket # 04-296

To Whom It May Concern:

KLLV - Daystar Radio, LLC is licensed in Breen, Colorado. It is a non-profit, 501 C-3, listener supported radio station in rural SW Colorado.

We are writing this letter with the understanding #04-296 has already closed, but we would appreciate you including this information in the docket.

Due to the rural setting of this station, we do not have access to high speed internet which is required for the new Common Alerting Protocol (CAP). At this time, we do not have a time frame for when DSL will be available. [Please see the attached letter from Century Link.]

We would like to request a waiver of requirement for KLLV to be EAS-CAP compliant until DSL is provided in our rural area.

If you have any questions or concerns please feel free to contact us. Thank you.

Sincerely,

Debbie Baker
KLLV Board Member
